EDUCATION, CORPORATE ACCOUNTS AND SMEs

We provide Operating Leases specifically designed for the Education, Corporate Accounts and SMEs. We can structure various packages suitable for the customer's individual needs including:

- Purchasing outright (with or without a maintenance agreement)
- Lease rental (100% tax allowable)
- Short Term rental agreement
- Cost per print agreement

Whether you are looking to rent, purchase or lease, we will ensure that Euro Digital Systems provides the most appropriate finance package that best suits your business.

PRINTING, COPYING AND SCANNING

At Euro Digital Systems we have succeeded in building strategic partnerships with our customers. Working towards a common goal, our systems are designed to maximise efficiency and control costs.

When budgets are tight, innovative thinking is required to get the maximum results. We understand that projects demand complete and uncompromising confidentiality as well as being printed to the highest quality required for your business. We offer consistently high quality printing equipment combined with a flexible and dependable service. Combining state of the art technology and our skilled staff allows us to offer tailored print solutions to all our customers.

OUR SERVICES AND PARTNERS

DOCUMENT MANAGEMENT

Provider of cloud solutions for document management and workflow automation. DocuWare office automation solutions deliver smart digital workflow and document control that set a new pace for worker productivity and business performance. DocuWare's zero-compromise cloud services are a recognized best-fit for digitizing, automating and transforming key processes. DocuWare operates in 90 countries with headquarters in Germany and the U.S.

MANAGED PRINT SERVICES

Founded by two young software developers back in 1998 the youthful passion and start-up culture remains just as strong with them today. PaperCut is a print and copy output management software product developed and marketed by PaperCut Software International. From simple tracking and monitoring of print jobs, to integrating BYOD printing or advanced custom job management, PaperCut can be up and running in minutes.

UK WIDE PRINTER MAINTENANCE SERVICE

Our call out times are less than 4 hours from when your fault is logged.

We provide a preventative maintenance solution that neutralises problems before they can affect the performance of our equipment in your workplace. Our maintenance program automatically submits the meter readings on a monthly basis. The software can assess your machine usage and determine which consumables and parts are required prior to their life expectancy. This software also generates a preventative maintenance call, which is completed by our team of specialist engineers, all trained and accredited by Xerox, Canon, and Olivetti.

XEROX

Is the biggest global name in digital printing solutions and document services. Their range of products extends from desktop A4 machines through to high volume production print machines and their machines can be found in small and mid-size businesses, large enterprises, governments, schools and local authorities throughout the world.

As one of their biggest local partners, we have experts on hand to advise on the best Xerox products for your business needs and can supply, install, network and service any Xerox device at unbeatable prices.

CANON

Are one of the largest and most innovative names for digital print solutions across the world. We are Advanced Office Imaging Partners which positions us as your perfect partner for Canon devices. We are specialist providers for the fantastic Canon imageRUNNER ADVANCE range of multi-function printers.

The range of Canon devices available covers A4 desktop printers and A3 multi-functional devices through to high volume production print machines. The Canon range of devices can be found in offices in all business sectors including local authorities, large business enterprises, SMEs, Government offices, and schools and colleges.

OLIVETTI

Olivetti is a global leader in printers for front-office applications, with more than 1,500,000 printers installed in the banking sector alone all over the world.

Combining cost-effective functionality with Italian styling Olivetti carry a huge presence in the USA and China, where it has an 80% market share.
